A BRIEF SUMMARY.....

*From the creative strands of our imaginations to the keys of our keyboards, Women4Women is now a reality.....*

Women4Women is a non-profit organization that stands for the rights of women in Africa.

Women4Women recognizes and understands that as a culturally-oriented continent, members of African nations till date still blindly follow many harmful-archaic traditions and practices.

This platform, in line with the United Nation's Sustainable Development Goals, aims to alleviate the aforementioned, ailing women and girls alike, in our current world.

Spurred by our passion, creativity, drive for change, and identity as trailblazers, we have created this platform as support and encouragement for women to become better, away from the burdens of suffering and injustice.
